- There are potential benefits and risks of video-conferencing that differ from in-person sessions.
- Confidentiality still applies for telepsychology services, and nobody will record the session.
- You agree to use the video-conferencing platform selected for our virtual sessions
- You need to use a webcam or smartphone during the session.
- It is important to be in a quiet, private space that is free of distractions (including cell phone or other devices) during the session.
- It is important to use a secure internet connection rather than public/free Wi-Fi.
- It is important to be on time and enter the Online Clinic.
- If you need to cancel or change your appointment, you must notify the psychologist at least 48-hours in advance by phone, text, and email.
- We need a back-up plan (e.g., phone number where you can be reached) to restart the session or to reschedule it, in the event of technical problems.
- We need a safety plan that includes at least one emergency contact and the closest emergency room to your location, in the event of a crisis situation.
- If you are not an adult, we need the permission of your parent or legal guardian (and their contact information) for you to participate in telepsychology sessions.
